

## **ANNEX C - Factsheet on Singapore 5G and Telecoms Academy Portal**

In partnership with the Infocomm Media Development Authority (IMDA), the Singapore 5G & Telecoms Academy is set up to attract and build a ready pool of capable talent in 5G and emerging technologies such as the internet of things, cloud engineering and data analytics.

Managed by both National University of Singapore (NUS) and Singapore Polytechnic (SP) as Consortium Partners, the Singapore 5G & Telecoms Academy supports the industry by developing 5G-related training courses and academic programmes as well as collaboration with Institutions of Higher Learning and private training providers.

The list of training partners include:

- Institute of Technical Education
- Nanyang Technological University
- Nanyang Polytechnic
- Ngee Ann Polytechnic
- National University of Singapore
- Republic Polytechnic
- Singapore Institute of Technology
- Singapore Management University
- Singapore Polytechnic
- Singapore University of Social Sciences
- Singapore University of Technology and Design
- Temasek Polytechnic

The full list of courses can be found on [go.gov.sg/5gacademy](https://go.gov.sg/5gacademy).
