

**COMPULSORY ON-ARRIVAL COVID-19 TEST FOR TRAVELLERS
ARRIVING IN SINGAPORE VIA SINGAPORE-MALAYSIA
VACCINATED TRAVEL LANE (LAND)**

1. In view of recent reports of a potentially more contagious variant of the COVID-19 virus, the B.1.1.529, all travellers arriving in Singapore from Malaysia via the Vaccinated Travel Lane (VTL) (Land) will be required to undertake an Antigen Rapid Test (ART) upon arrival. This will take effect from 29 November 2021, 0800hrs, starting with the first VTL (Land) travellers arriving in Singapore.
2. The on-arrival ART for travellers arriving in Singapore via the VTL (Land) will be administered at the Woodlands Temporary Bus Interchange and Queen Street Terminal. Travellers will be required to make an e-payment for the ART at the testing centre directly.
3. Singapore and Malaysia are launching the VTL (Land) across the Causeway from 29 November 2021, to further restore the connectivity between the two countries. The on-arrival ART will allow us to reduce the risks of spread of B.1.1.529 to Singapore, and enable us to progressively expand the VTL (Land) in a safe and calibrated manner.
4. All travellers should purchase their bus tickets and ensure that they have the necessary documents ready, before they board the designated VTL buses. For more information on the VTL (Land) between Singapore and Malaysia, please visit <https://www.safetravel.ica.gov.sg/vtl-land/overview>.
